

**LUBRICANTS™**

**POWER TO PERFORM™**

## **TRIMOFIN AL**

**NEAT CUTTING FLUIDS**

### **DESCRIPTION**

Fully synthetic low viscosity oil suitable for cutting operations of Aluminum. This oil is specially designed for oil mist type cutting systems and where non-staining properties are required. It functions as a coolant, cutting oil and prevents sticking of tool to the work piece.

### **PHYSICO-CHEMICAL PROPERTIES**

PROPERTIES	TYPICAL VALUES
Appearance	Clear
Acidity Inorg, mg KOH/gm	Nil
Density @ 29°C, gm/cc	0.831
Flash Point, (COC) , °C	130
Kinematic Viscosity @ 40°C, cSt	12.60
Hydroxyl Value mg KOH/gm	218.00
Flash Point, °C, PMC	130.00
Solidification Temp, °C	20.00
